Another Promise From State Board To Build Bridges

Plans of the State Road Department to build two new bridges in the Glades at South Bay and Lake Harbor, construction to start after the first of the year, were reported to the County Commission at its regular meeting this week. Commissioner Rardin said that the State Road Department commissioner from South Florida reported to county officials at Tallahassee last week, that work on the two Glades spans was planned to start as soon after the first of the year as possible. He said the two items were high on the state board's priority list.

The commission this week also heard a report from Commissioner Rardin who was the county's official representative at the fifth annual Governor's Safety Council held in Jacksonville last week. Rardin told the commission that the state wide traffic safety group, each year holds meetings that become more educational.

Despite the fact that Lampi lost 10 of his most skilled musicians through graduation last spring, he is getting off to a good start this fall with more than 40 students reporting for daily practice in the band house on the campus. Many of these student musicians took advantage of the summer band clinic which the Pahokee bandmaster conducted at the school in June and July to further their musical training.

Last year's Pahokee High School band won an all-superior rating in the State Contest at Lake Worth and West Palm Beach and it is Lampi's goal that this year's band will be as good or better. He is beginning his fourteenth year as director.

In addition to playing some lively numbers from the band stand during the game, the band is planning some spectacular maneuvers on the field during the half.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Recently a popular radio quiz program offered a young lady contestant fifteen hundred dollars if she could answer the following question: "Who was an infant prodigy at the age of one year, was a star at five, was breaking every boxoffice record in show business at fourteen, was washed up at 20, made a come back at twenty three, turned director at twenty eight, and now, in his thirty-first year is a veteran of over three decades in the entertainment field?" Well, chills, can you, without reading further answer this question correctly—but not for fifteen hundred clams? Oh, you can't? Well, young Uns, without hesitation, the female participant snapped—"Why Mickey Rooney of course"—and pocketed the fifteen hundred potatoes—that is to say, if she was wearing her dungarees. The question was as easy to answer as the patronizing query. "Who is buried in General Grant's tomb?" Mickey has led just as public a private life as anyone in the world. He actually started his acting career at the age of one year, when he escaped from his mother's dressing room at a Brooklyn theater and crawled onto the stage during the middle of their act. He took the center of the stage, quite naturally, and sang "Pal Of My Cradle Days" with a minimum of baby gurgles and wheezes. He's had the center of the stage ever since. The Mick, as his friends call him, was born Joe Yule, Jr., in Brooklyn, N. Y. . . . September 22nd, 1922. His parents were Joe Yule, Sr., and Nell Carter, vaudeville performers. He served his country in the U. S. Army in World War II. So, write it down in your book, then if you are ever quizzed you'll be able to rake in a hat full of moola for a quick answer. See you at the movies—Mal.

Sneak Thief Visits Canal Point Homes

A thief, specializing in the rifling of trousers, was on the prowl in Canal Point Thursday night when he broke into three houses and attempted to enter several more, according to Deputy Sheriff Frank O'Connell.

The thief reached his goal, which evidently was trousers containing billfolds, in the home of Mrs. T. M. Chastain on Lake Front Drive where he took the trousers of O. D. Jones and James Gibson, who were sleeping in separate rooms on the second story, and carried them downstairs before going through the billfolds, getting only a few dollars from each man, O'Connell said. On his way out through the kitchen the prowler tarried long enough for a midnight snack from the refrigerator.

Gibson, a grandson of Mrs. Chastain who is a patient at the local hospital and was not home, was sleeping in his grandmother's house but has a separate home of his own in Canal Point. Sometime during the night the Gibson home was also broken into and completely ransacked but nothing was taken, O'Connell said. The Ansil Holt residence was also broken into and the prowler discovered in the kitchen by Mr. Holt who immediately put in a call for Deputy Sheriff O'Connell.

At the homes of Mr. and Mrs. Tom Ennis the prowler was heard trying to open the back screen door by Mrs. Ennis and frightened away. There were signs also of attempts to enter the homes of Mr. and Mrs. Anderson Chastain, Mr. and Mrs. Delmar Hooks and others.

On the same night a prowler entered the home of Coach and Mrs. Webb Pell in Pahokee but was frightened away before stealing anything, according to Leon Guthrie, Pahokee chief of police. Guthrie and his officers, as well as Sgt. Tommy Whitaker of Belle Glade, are assisting O'Connell with the investigation.

From where I sit... by Joe Marsh

Cream Whips Main Street Traffic

Big traffic jam in front of the office last week. Thought everybody in the county was coming in to buy *The Clarion*, but they weren't.

Seems a 5-gallon can fell off Whitey Fisher's truck, spilling cream all over the street. Our cop on duty, Tiny Fields, halted traffic so Whitey could pick up the can. Tiny was about to wave the cars on when a kitten ran out and started lapping up the cream.

Well, traffic piled up, but Tiny paid no heed. Light changed

green three times. After the kitten had enough, Tiny waved the traffic through.

From where I sit, this was just a "Tiny" demonstration of the way people in our town are. They're usually pretty considerate and tolerant. If one of our neighbors prefers a good glass of beer to his friend's coffee at dinner time, it's just each to his own taste and everything's "smooth as cream" between them.

DO YOU REMEMBER?

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

25 YEARS AGO

A battle is being waged with rising water in the Canal Point territory. The water is certain to be controlled. The Pelican Lake district supervisors have a rock dredge in that district and are running a dragline machine in sections 35 and 36, north of the canal. The Fairbanks-Morse pumping outfit disposed of the trapped water on the north side of the canal that was released when the dredge cut through the rock that held it back. In the Pahokee district the pump was started this week but it was shut down Wednesday for repairs. Dams were put in before the pump was started to reduce the area from which the water was to be handled.

Road conditions in parts of the Lake Okeechobee region are had in consequence of the heavy rains; however, although circuitous routes must be used between some points, no communities are shut off from egress and exit. Connors Highway and state road No. 8 are open their entire lengths. The road between Belle Glade and West Palm Beach is in good condition. Motorists are advised to avoid the road into South Bay for a few days unless their business is pressing.

There is dry land in the upper Everglades sufficient for the production of as large a crop of fall vegetables as the markets probably will require and planting is underway but the acreage is being limited by the uncertainty as to water conditions in the next two weeks.

Organization of a Kiwanis Club or some other service club is contemplated at Belle Glade, Dr. W. J. Buck said Tuesday. Because Belle Glade admittedly has population insufficient to provide the requisite number of charter members, it is intended that the list be opened to qualified persons who reside at Canal Point, Pahokee and South Bay.

After many years of service on Lake Okeechobee and the canals of the Everglades, the passenger boat Palm has been laid up and it is uncertain that it will ever again be used in this territory. The Palm went from South Bay to Clewiston Friday on schedule but it did not return and at last report it was still at Clewiston. The Palm was used on the TTT Line's cross state route between West Palm Beach and Ft. Myers, serving as a ferry on the lake between South Bay and Clewiston, now the terminus of highways.

The Kilgore Seed Company, with headquarters at Plant City, largest firm in its line in South Florida, will open at Belle Glade a branch of its Canal Point-Pahokee store. A lot has been secured from C. E. Rife and contract for a building given to James Maxwell of Pahokee. The site is on the South Bay road.

Contract for the construction of the 10-mile extension of the Florida East Coast railroad from Belle Glade on Hillsboro canal to Lake Harbor on Miami canal was awarded Wednesday at the general offices of the railway company in St. Augustine to the Cornell-Young Company.

The two high schools in the upper Everglades section of Palm Beach County—the high school at Canal Point and the junior high at Pahokee—will open for the 1953-54 term next Monday morning, September 17. The Smith-Hughes agricultural vocational school which is operated in connection with the Canal Point high school will open at the same time.

Three thousand eight hundred one dollar bills were paid out Saturday by Cashier J. M. Elliott of the Bank of Canal Point, part of

the \$9,000 pay rolls that were disbursed through the bank that day. The total currency that was paid out Saturday by the Bank of Canal Point was a little over \$11,000.

A strong current was still flowing from Big Mound canal into West Palm Beach canal Sunday, discharging water gathered from sloughs in the flatwoods country that is closer to St. Lucie canal than to West Palm Beach canal, this water from Martin County's flatwoods slough being diverted by Big Mound canal to run into Lake Okeechobee through the spillway at Canal Point instead of being discharged into the ocean through the spillway at West Palm Beach.

Report has been made to "Mayor" Vann and "City Clerk" Batchelor and "Marshal" Hamrick that too much rain fell last Friday and they have been asked to do something about it. They are threatened with the initiative, referendum and imperative mandate, alias recall, if they do not stop the water from accumulating in front of Coburn's hardware store, the bank, the French Shoppe, the drug store, Vin's market and the post office.

If we have no telegraph service our friends can't wire us for money to come home on when they go broke on their vacation trips. Broadcast appeals for money cause static.

A Canal Point woman who has had two divorces says marriage licenses ought to be like automobile licenses — renewable each year?

A Canal Point man adds that grass widows ought to be compelled by law to wear danger signals in the same position automobiles have stop signals.

It doesn't make much difference after all whether we get improved telegraph and telephone service for we're all going to have radios next winter, anyhow.

The W. R. Bonham family, formerly of Canal Point, is in California. On a card received from him, mailed at Avalon Bay after a visit to Catalina Island, he writes: "This is a pleasure loving country. The people work hard here trying to have a good time and I guess they succeed."

BELLE GLADE—Announcement of the birth of a daughter to Mr. and Mrs. J. Dingfelder, at Plant City, has been received here.

Mr. and Mrs. M. Cook of Tennessee, Georgia, are guests of Mrs. Cook's sister, Mrs. W. J. Black.

Mrs. B. V. Pace and son Jimmy have returned from their old home in Birmingham, Alabama. They report an enjoyable vacation.

B. C. Forte has been transferred as station agent for the F. E. C. to Okeechobee, and J. H. Hamilton has been sent here as local agent.

C. O. Walker, who lived here several years ago, but has been in Georgia for some time, has returned and will farm here this winter.

Christian Science Group Of Canal Point

Subject of the Lesson-Sermon in Christian Science churches Sunday is "MATTER".

The Golden Text is from Hosea (1:7): "I will have mercy upon the house of Judah, and will save them by the Lord their God, and will not save them by bow, nor by sword, nor by battle, by horses, nor by horsemen."

Bible Readings include this one from Revelations—(12:9): "The great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world."

Passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "That false claim—that ancient belief, that old serpent whose name is devil (evil), claiming that there is intelligence in matter either to benefit or to injure men—is pure delusion, the red dragon; and it is cast out by Christ, Truth, the spiritual idea, and so proved to be powerless" (p. 567).

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

The county engineer is now preparing plans and specifications for the new building which will house all the activities of the county agricultural department headed by M. U. Mounts, county agent.

In preparation for start of the county's new fiscal year on Oct. 1, the board voted to issue payroll checks on Sept. 21, transfer all funds effective Sept. 30 and to pay county bills by the end of September. The county's books will be held open until October 15 to clear all records for the new year.

Rotary Purchases New Denton Trophy

The Pahokee Rotary Club at the Thursday luncheon meeting last week voted to purchase a replica of the V. C. Denton Memorial Athletic Trophy for Pahokee High School.

The original trophy was presented to the school in 1938 by the late V. C. Denton, pioneer hardware merchant, high school sports patron and charter member of the Pahokee Rotary Club. Each year since, the name of the outstanding Pahokee Blue Devil athlete in the graduating class has been inscribed on the trophy until today the space is filled and a new trophy is needed.

The first Pahokee High Senior athlete to have his name inscribed on the trophy was Joe Tom Boynton, backfield star on the 1938 football team, now a prominent cattleman of the Glades. Another of Pahokee High's football

greats whose name is on the trophy is Calvin Peacock, now head football coach at Belle Glade High School.

Other names on the trophy are those of I. J. Frasure, Jr., Kermit Dell, David Unwin, Glynn Carr, Hugh Branch, Frank Handley, Kyle Hatfield, Wilbur Geiger, Hueston Connell, Gene Miller, Carney Wilder and Benny Sims.
